

Proteins, Superfoods

PLANT BASED PROTEINS Proteins are vital. Not only do they belong to the so-called “building blocks of the body” but also serve as protection against infections. Proteins are necessary for the proper functioning of the entire body. Vegetarians and vegans in particular rely on protein supplements as part of their diet. Thanks to their high concentration of nutrients and many other vital substances, vegetable proteins also help dieters lose weight. Kündig offers a wide range of proteins from different plant sources in powder form.

Product Information

Property: *Powder / Crisps*
Packing: *Bags / cardboard boxes / buckets / Big bags*
Usage: *Dietary supplement / meat substitute / cereals*

SUPERFOODS The term ‘superfood’ is used to describe foods that are especially beneficial for health and well-being. The superfoods in our range include kaniwa, which is a relative of quinoa, chia seeds and are rich in omega-3, psyllium and psyllium husks, which also have medicinal uses, maca (a root vegetable from the Andes), and teff (lovegrass), the smallest cereal in the world.

Product Information

Property: *Beneficial for health and well-being*
Packing: *According to customer requirements*
Usage: *Nutrition / dietary supplement*

WILD RICE Wild rice is not rice in the botanical sense but more properly belongs to the grass family. These grass varieties are used for cooking in much the same way as conventional rice. The relatively long, dark (brown to black) wild rice grains are often mixed with white, “genuine” rice grains. Wild rice contains many valuable substances, such as vitamins, trace elements, minerals and amino acids.

Product Information

Property: *Rich in vitamins B18 and B20*
Packing: *Bags / Big bags*
Usage: *Rice mixes / packaging*
