

Pulses

Pulses are nutritious, healthy and have a long shelf-life. That is why, in many countries they are one of the essential foodstuffs. As a valuable source of protein, they are also a popular component of vegetarian and vegan diets. In addition to dried products, Kündig offers a comprehensive range of pre-cooked pulses.

BEANS There are dozens of different bean varieties. Among the best known are pinto beans, cranberry beans (also known as borlotti beans), red kidney beans, smooth, shiny white beans and black beans. Lupins are a new kind of superfood; they are rich in protein, gluten-free and are low in carbohydrates.

Product Information

Property: *Dried / pre-cooked*
Packaging: *Bags / Big bags / according to customer requirements*
Usage: *Packaging / mixes / industry*

PEAS After maturing on the plant, dried peas are peeled. They are available both whole and as halves. Dried peas have a higher nutritional value than fresh peas and taste less sweet. Peas are particularly rich in valuable proteins, vitamins, minerals and fibre.

Product Information

Property: *Dried / pre-cooked / whole / halved*
Packaging: *Bags / Big bags / according to customer requirements*
Usage: *Packaging / mixes / industry*

LENTILS Lentils are easier to digest than other pulses. They are available in various colours and belong to the pulses with a particularly high protein content. Furthermore, they are rich in vitamins and minerals and have a low glycemic index.
